PENGECEKAN

Untuk melakukan pengecekan apakah sudah berhasil atau belum, dapat menggunakan aplikasi S3 Browser

1. Masukkan Access Key ID dan Secret Access Key. Kemudian klik **Add new account**.

The screenshot shows the 'Add New Account' dialog box in S3 Browser 10.9. The dialog has a title bar with 'S3 Browser 10.9', 'Accounts', 'Buckets', and 'New bucket' buttons. The main content area is titled 'Add New Account' with a subtitle 'Enter new account details and click Add new account'. It contains several fields: 'Display name' (set to 'New Account'), 'Account type' (set to 'S3 Compatible Storage'), 'REST Endpoint' (set to 'bucketbps.go.id'), 'Access Key ID' (set to '2_0320-DDS-SIMBRS_accid'), and 'Secret Access Key' (filled with dots). There are also checkboxes for 'Encrypt Access Keys with a password' and 'Use secure transfer (SSL/TLS)'. At the bottom right, there are 'Add new account' and 'Cancel' buttons. A red arrow points to the 'Add new account' button.

2. Account akan muncul apabila berhasil
